

RISK DISCLOSURE STATEMENT

GreatBless Global Markets Ltd.

INTERPRETATION

In this Statement, **Account** means each trading account the Company maintains in your name, identified by a unique account number (login). Your wallet is not an Account.

That definition, and any other term defined in the Client Agreement, applies in this Statement whether or not capitalised, unless the context otherwise requires. Where a definition in this Statement differs from the Client Agreement, the Client Agreement applies.

1. ACKNOWLEDGEMENT AND ACCEPTANCE OF RISK

1.1 By accessing, registering, or using any services provided by **GreatBless Global Markets Ltd.** (the “Company”), you **irrevocably acknowledge, agree, and accept** that:

- You fully understand all risks associated with trading
- You assume **full and sole responsibility** for all trading decisions
- You are acting **entirely at your own risk**

1.2 You expressly agree that the Company shall not be responsible for any losses, damages, or liabilities arising from your trading decisions, except to the extent that such liability cannot lawfully be excluded.

2. NO ADVICE / NO FIDUCIARY DUTY

2.1 The Company provides services strictly on an execution-only basis.

2.2 The Company:

- Does not provide investment advice or personal recommendations
- Does not advise you whether any particular instrument, strategy, or transaction is appropriate for you
- Does not act as your fiduciary, agent, or adviser

2.3 The Company may collect information about your knowledge, experience, and financial circumstances at account opening and from time to time. That information is used for the Company's own compliance, risk-assessment, and account-eligibility purposes. It does not constitute a personal recommendation, and the Company granting you access to an account or instrument is not a statement that trading is appropriate for you.

2.4 Where the Company states that it takes reasonable steps to obtain the best possible result when executing your orders, that obligation relates only to the execution of orders as described in the Order Execution Policy. It is not advice, and it does not make the Company responsible for your trading decisions or their outcome.

2.5 You acknowledge that:

- No communication from the Company shall be construed as advice
- You must not rely on any information provided as a recommendation to trade

3. TOTAL LOSS RISK

3.1 Trading involves a **substantial risk of loss**, including but not limited to:

- Loss of your entire deposit
- Losses exceeding your deposited funds (where applicable)

3.2 You explicitly confirm that:

- You are financially capable of sustaining total loss
- You will not rely on the Company for loss prevention

4. MARKET RISK AND UNPREDICTABILITY

4.1 Markets are inherently volatile and unpredictable.

4.2 You acknowledge that:

- Prices may move against you without warning
- Market conditions may change instantly
- No strategy, system, or tool guarantees profit

4.3 The Company bears **no responsibility** for market movements or outcomes.

4.4 Cryptocurrency Risk: Trading in Cryptocurrency CFDs carries unique and extreme risks, including extreme price volatility, massive price gaps, and sudden drops in liquidity.

4.5 The Client acknowledges that cryptocurrency markets operate over the weekends, and price gaps may occur outside of standard fiat currency trading hours. The Company shall not be liable for any execution delays or slippage specific to digital assets.

5. EXECUTION AND PRICING DISCLAIMER (CRITICAL)

5.1 The Company does **not guarantee**:

- Order execution
- Execution timing
- Execution price

5.2 You accept that:

- Slippage may occur under all conditions
- Orders may be rejected, delayed, or partially executed
- Market prices displayed may differ from executable prices

5.3 In the circumstances described in the Client Agreement and the Order Execution Policy — including manifest pricing errors, technical malfunction, abnormal market conditions, or a breach of the Client Agreement — the Company may:

- Reject or cancel an order
- Amend or adjust an execution price
- Void, reverse, or cancel a trade, or any profit directly resulting from that trade

The Company will not cancel unrelated trading profits merely because an account was profitable or because you used a legitimate trading strategy.

5.4 Under **no circumstances whatsoever**, shall the Company be liable for:

- Any difference between expected and executed price
- Any loss resulting from execution delays or failures

6. LEVERAGE AND MARGIN LIABILITY

6.1 Leverage significantly increases risk exposure.

6.2 You acknowledge that:

- Small price movements may result in disproportionate losses
- Your entire Account may be liquidated without notice

6.3 Where margin or stop-out requirements are not met, or as otherwise permitted under the Client Agreement, the Company may close or liquidate positions at any time and apply stop-out without prior notification.

7. LIQUIDITY AND MARKET ACCESS RISK

7.1 The Company does not guarantee continuous market access.

7.2 You may be unable to:

- Enter or exit positions
- Execute orders at desired prices

7.3 The Company shall not be liable for any resulting losses.

8. CONFLICT OF INTEREST AND COUNTERPARTY RISK

8.1 You acknowledge that the Company may:

- Act as counterparty to your trades
- Profit from your losses

8.2 The Company, its affiliates, or liquidity providers may hold positions **opposite to yours**.

8.3 You acknowledge that these conflicts are inherent in the Company's execution model and are disclosed to you before you trade. The Company manages such conflicts through its internal procedures. This does not remove your right to raise a complaint through the procedure set out in the Client Agreement.

9. TECHNOLOGY AND SYSTEM FAILURE

9.1 Trading systems are subject to:

- Failures
- Interruptions
- Delays

9.2 The Company bears **no liability** for:

- Platform downtime
- Connectivity issues
- Data inaccuracies

10. THIRD-PARTY AND INSOLVENCY RISK

10.1 The Company may rely on third parties.

10.2 You accept that:

- Third-party failure may impact your funds and trades
- The Company is not required to hold Client funds in segregated accounts unless it expressly states otherwise, and segregation, where applied, does not guarantee protection

10.3 The Company shall not be liable for:

- Insolvency of any third party
- Loss of funds due to such events

10.4 No Investor Protection Fund:

The Company is an International Business Company registered in Saint Lucia. You acknowledge and accept that you are **not** covered by any statutory investor compensation scheme or financial ombudsman service. In the highly unlikely event of the Company's insolvency, your funds may not be protected.

11. FEES, COSTS, AND CHARGES

11.1 All trading involves costs, including:

- Spreads
- Commissions
- Swaps

11.2 These may change at any time. Changes take effect upon publication on the Company's platform or website.

12. CLIENT RESPONSIBILITY (EXTREMELY IMPORTANT)

12.1 You are solely responsible for:

- Monitoring your account

- Managing your risk
- Understanding all trading conditions

12.2 The Company has no obligation to:

- Warn you of losses
- Notify you of margin calls
- Monitor your account on your behalf

Where the Company operates automatic risk controls (see Section 13), those controls are operated for the Company's own risk management and, where offered as an optional feature, because you have chosen to enable them. They do not transfer responsibility for your account to the Company and do not guarantee that a loss will be limited.

13. AUTOMATED RISK CONTROLS AND PLATFORM INTERVENTION

13.1 The Company operates automated risk controls that may act on your account without prior notice. These include mandatory controls applied by the Company and optional features you may enable, as described in the Client Agreement, and include Mandatory Daily Drawdown, Trader Guard Scenarios and the rules configured within them, and Auto-Lock Stop Loss and Take Profit.

13.2 Depending on the applicable rule, such controls may:

- Reject or delay an order you have submitted
- Cancel your pending orders
- Close or partially close your open positions at the available market price
- Prevent you from modifying or closing a protected position
- Disable trading on your account or lock the account until a specified time

13.3 These controls do not eliminate risk. You acknowledge that:

- A control may not act at the exact time, price, equity value, or loss amount configured
- Market gaps, slippage, liquidity, latency, or system failure may cause your loss to exceed a configured limit
- A position may be closed at a price materially worse than the level that triggered the control
- Data used by a control may be delayed, unavailable, or subsequently corrected

13.4 Where you enable an optional control, you do so at your own discretion and remain responsible for the outcome. A control being available, enabled, or triggered does not make the Company responsible for managing your account or for any loss.

13.5 Where a control restricts your ability to modify or close a position, you acknowledge that the market may move against you during the period of that restriction, and that the Company is not responsible for any loss arising from that movement.

13.6 Where applicable, a commitment period may apply to a control you have selected. For Trader Guard, the commitment period applies to the Scenario and all rules configured within it. An individual Trader Guard rule cannot be activated independently of a Scenario. During the selected commitment period, you may not be able to delete, disable, shorten, or weaken the Scenario or its rules. You accept that this is a deliberate feature intended to support trading discipline.

14. ABUSIVE TRADING AND COMPANY RIGHTS

14.1 The Company determines whether trading behaviour is abusive, acting reasonably and on the basis of documented evidence.

14.2 This includes, but is not limited to:

- Latency arbitrage, price-feed exploitation, or arbitrage against an erroneous or stale price
- System manipulation
- Any other practice identified as prohibited in the Client Agreement

14.3 In such cases, the Company may:

- Cancel trades
- Cancel or adjust profits directly attributable to the confirmed abuse, calculated by reference to the affected transactions
- Adjust account balances
- Suspend or terminate accounts

14.4 The Company's decision is binding unless successfully challenged through the complaints procedure in the Client Agreement.

15. REGULATORY AND LEGAL UNCERTAINTY

15.1 Laws and regulations may change at any time.

15.2 Such changes may negatively affect your trading conditions or profitability.

15.3 The Company bears no responsibility for such changes.

16. TAX AND LEGAL OBLIGATIONS

16.1 You are solely responsible for:

- Tax obligations
- Legal compliance

16.2 The Company provides **no tax or legal advice**.

17. LIMITATION OF LIABILITY (ULTIMATE CLAUSE)

17.1 To the **maximum extent permitted by law**, the Company shall **not be liable under any circumstances whatsoever** for:

- Trading losses
- Loss of profits
- Indirect or consequential damages
- System failures
- Third-party actions

- Market conditions

17.2 Nothing in this Statement excludes or limits any liability of the Company, or any right of the Client, that cannot lawfully be excluded or limited. Nothing in this Statement removes your right to use the complaints procedure set out in the Client Agreement.

18. FINAL PROVISIONS

18.1 This Statement:

- Forms an integral part of the Client Agreement and is a Company Policy under it
- Is accepted by you when you accept the Client Agreement
- Where inconsistent with the Client Agreement, the Client Agreement prevails

18.2 The Company may amend this Statement at any time. Amendments take effect upon publication on the Company's website or platform.

18.3 Continued use of services constitutes acceptance of the amended Statement.
